WORK EXPERIENCE

Freelance FullStack Web Developer — 2023 - Present, Paris

- Designing and developing responsive and visually appealing web applications using React, Tailwind CSS, and Next.js
- Collaborating closely with clients to understand their requirements and translate them into functional and elegant websites.
- Implementing front-end designs using modern frameworks ensuring optimal performance
- Providing ongoing website maintenance and support, including bug fixes and updates.
- Demonstrating strong problem-solving skills and the ability to work independently while meeting project deadlines

Software/QA engineer **Vade Secure** — 2020 - 2022, Paris

- Developed user interface for a mail generator application, ensuring an intuitive and user-friendly experience
- Built APIs using FastAPI to facilitate seamless communication between various system components
- Developed robust web scraping solutions using Python and BeautifulSoup to extract and parse data from diverse sources
- Implemented comprehensive module tests and unit tests using Pytest, ensuring reliable and error-free code functionality
- Ensured comprehensive documentation of projects using Mkdocs, facilitating knowledge sharing and team collaboration
